Subject: Upper 9-Mile Plan -Updates CSTAG Presentation

Jennifer, Eugenia and Michael:

Attached is a revised CSTAG presentation that addresses our discussion on November 29. I have provided both clean and red-highlighted text changes to allow you to see where changes were made. The CPG has added notes about two EPA comments regarding:

- * DUs partially located in erosional areas - it is noted that CPG is revising its calculations and will be consistent with Ed G and John C's 11/30 telephone conversation
 - * Risk reduction slides - EPA's concern is acknowledged and that they will be revised.
- We have aligned the time-lines on Slide 8 & 43. I will be working on Mgt presentation.

Please contact me with any questions.

Thank you.

R/
Rob
